

OUR SANDWICH DESIGN DO NOT ALLOWED MOISTURE TO GET INTO OUR CONSTRUCTION!

The result is now use of energy to push back the moisture inside the construction;
BEET will always stay dry inside, and this is way you save energy money!

No insulation

With 8 cm insulation

External wall

Energyconsumption (Domestic oil) per m²/Year

uninsulated
with 40 mm insulation
with 80 mm insulation
BUT BEET ONLY USE

13,9 Liter
5,9 Liter
3,7 Liter
2.8 LITRES.
